

Social Studies

Much of our social studies curriculum is integrated into the Language Arts portion of the day through literature. Our social studies curriculum consists of five topics, which include:

- Cultures and Traditions
- Decision Making and Social Skills
- Community Awareness
- School and Rules
- Families

Science/Health

Health topics will include sharing, expressing feelings, nutrition and food groups, as well as home and school safety. Students will learn to practice good health habits and recognize the need for rest, play, and exercise. During the year, your child will experience activities from five different science units:

- Water Exploration
- Ecology
- Senses
- Magnets
- Seeds to Plants
